BALI DIGESTIVE SUMMIT 2026

"Advancements and Precision in Upper GI Surgery : Integrating HPB in Modern Digestive Practice"

Dr. dr. I Made Mulyawan, Sp. B, Subsp. BD(K)

Chairman
Bali Digestive Summit 2026

WELCOME SPEECH

Dear Colleagues,

On behalf of the Organizing Committee, it is my great pleasure to welcome you to the Bali Digestive Summit 2026.

This year's theme, "Advancements and Precision in Upper GI Surgery: Integrating HPB in Modern Digestive Practice," reflects our commitment to embracing innovation, precision, and evidence-based approaches in advancing digestive surgery.

We are delighted to host this meeting in the vibrant setting of Sanur, Denpasar, where we hope the inspiring atmosphere will foster meaningful scientific exchange, professional collaboration, and lasting friendships.

Our comprehensive program features workshops, expert lectures, and panel discussions, while our commitment to a paperless conference reflects our dedication to environmental sustainability.

My sincere appreciation goes to our distinguished faculty, valued sponsors, and the entire Organizing Committee for their invaluable contributions to making this event possible.

I hope this summit will provide an enriching scientific experience, inspire new ideas, strengthen collaborations, and contribute to the continued advancement of digestive surgery in Indonesia and beyond.

I wish you all a successful and enjoyable conference.

Thank you, and welcome to Bali.

BALI DIGESTIVE SUMMIT 2026

"Advancements and Precision in Upper GI Surgery : Integrating HPB in Modern Digestive Practice"

Prof. Dr. dr. Warsinggih , SpB , Subsp.BD(K) , M.Kes

President, Indonesian Society of Digestive Surgery (IKABDI)

WELCOME SPEECH

Assalamu'alaikum Warahmatullahi Wabarakatuh,

Distinguished colleagues,

On behalf of the Indonesian Society of Digestive Surgery (IKABDI), it is my great pleasure to welcome you to the Bali Digestive Summit 2026.

We are grateful for the opportunity to once again gather in Bali this November to exchange knowledge, strengthen professional collaboration, and advance the field of digestive surgery together.

This year's theme, "Advancements and Precision in Upper GI Surgery: Integrating HPB in Modern Digestive Practice," reflects the evolving landscape of modern surgery.

As we enter an era of automation, precision medicine, and personalized care, the management of complex diseases involving the upper gastrointestinal tract, liver, pancreas, and biliary system demands increasingly integrated, multidisciplinary, and technology-driven approaches.

IKABDI remains committed to ensuring that Indonesian digestive surgeons stay at the forefront of surgical innovation, including minimally invasive techniques, robotic surgery, and the integration of artificial intelligence into clinical practice. This scientific meeting provides an invaluable platform to harmonize standards, strengthen professional networks, and ultimately improve the quality of surgical care for patients throughout Indonesia.

I would like to express my sincere appreciation to the Organizing Committee for their dedication in delivering this modern and environmentally responsible conference. I also encourage all participants to make the most of every scientific session, engage in meaningful discussions, and build lasting collaborations.

May the Bali Digestive Summit 2026 become another important milestone in advancing digestive surgery in Indonesia and beyond.

Thank you for your participation.

Wassalamu'alaikum Warahmatullahi Wabarakatuh.

See you in Bali
